* Where two or more cities are shown together, they belong to the same MSA. In these cases, the city data were combined to create a single urban entity. Individual city rates are listed in a separate table below.

** Suburbs refers to the MSA excluding the city(ies).

NA: Not applicable; Anchorage city and MSA boundaries are the same.

--- If the number of births was fewer than 100, the rate is not reported. Use caution in interpreting rates with small numbers.

^a For 1990, natality data were not available for Plano, which is one of the 100 largest cities and part of the Dallas MSA.

To make comparisons, Dallas city and suburban birth data and natality rates exclude Plano for both 1990 and 2000.

^b For 1990, natality data were not available for Glendale or Scottsdale, which are two of the 100 largest cities and part of the Phoenix MSA. To make comparisons, Phoenix city and suburban birth data and natality rates exclude these cities for both 1990 and 2000.

^c Oklahoma did not report birth data by race/ethnicity until 1991; therefore 1990 data by race/ethnicity are missing for Oklahoma City and Tulsa.

Source: Natality tabulations based on data from Centers for Disease Control and Prevention, National Center for Health Statistics, 1990 and 2000.
